PDV Salt (Pure Dried Vacuum Salt / Free Flowing Salt)

PDV Salt (Pure Dried Vacuum Salt) is known by multiple names such 'Free Flowing Salt', and 'Refined Salt' is an ultra-pure form of Sodium Chloride which can be used to multiple applications such as ultra high-quality textile dyeing where light colours need to be dyed, pharmaceutical uses, and food purposes where quality matters most.

Available Packing:

PDV Salt is available in 25kg and 50kg bags. Special packing can be arranged as per the customer's requirements.

Usage:

Pharmaceuticals, Chemicals, Food, Water Purification

Technical Specifications:

Parameter	Value
Appearance	Free Flowing White Crystalline
Purity (dry basis) as NaCl	Min 99.9%
Surface Moisture	Max 0.05%
Insolubles	Nil
Iron (Fe ₂ O ₃)	0.002%
pH (1% Solution)	7.0 - 8.5
Whiteness	96 W.H
Total Hardness as CaCO ₃	Nil
Total Hardness (as Ca ⁺⁺)	Nil
Total Hardness (as Mg ⁺⁺)	Nil
