PDV Salt Tablet

PDV Salt Tablets are specially formulated for efficient water softening, designed to regenerate water softener resins and improve the performance of your water treatment system. These pure, high-quality tablets dissolve easily and are free from impurities, ensuring no residue is left behind, which helps extend the life of your system. Ideal for both household and industrial use, PDV Salt Tablets provide reliable, cost-effective softening, ensuring soft, clean water for everyday use.

Available Packing:

Available in 25kg and 50kg Bags.

Usage:

Water Softening
